NOTA:

- (1) : la plus restrictive des normes pour les joint RTJ puisqu'il est obligatoire que le fabricant soit agréé API 6.

Les joints doivent être monogrammé du logo API suivi du numéro d'agrément du fabricant (pour SPM: 6A0200).

- (2) : Norme la plus courante et la moins restrictive.

NOTE:

- (1) : The most restrictive standards for RTJ gasket. It is required that the manufacturer is authorized API 6 .

The gaskets must be monogrammed logo follow the API manufacturer approval number (for SPM : 6A0200) .

- (2) : Standard most common and least restrictive.
